Denmark's SHAME หน้ากลัวมาก มีแต่เลือด!!

DENMARK : A SAD SCENE. THIS MAIL HAS TO BE CIRCULATED. **THERE IS NO WORSE BEAST THAN MAN!!!!** While it may seem incredible, even today this custom continues, in Dantesque, - in the Faroe Islands, (Denmark) . A country supposedly 'civilized' and an EU country at that. For many people this attack to life is unknown V a custom to 'show' entering adulthood. It is absolutely atrocious. No one does anything to prevent this barbarism being committed against the Calderon, an intelligent dolphin that is placid and approaches humans out of friendliness. And then there are bozos that complain about Canadians killing seals....
Please, Circulate this Email. Make this atrocity known and hopefully stopped !!
